SCAC POWER EQUIPMENT

OPERATOR'S MANUAL

SVRII GRASS CATCHER Model: GC-VRII

This manual contains the operating instructions and safety information for your Scag mower accessory. Reading this manual can provide you with assistance in maintenance and adjustment procedures to keep your mower accessory performing to maximum efficiency. The specific models that this book covers are listed on the inside cover. Before operating your machine, please read all the information enclosed.

© 2019 Scag Power Equipment Division of Metalcraft of Mayville, Inc. PART NO. 03454 Rev1. PRINTED 4/2019 PRINTED IN USA

FAILURE TO FOLLOW SAFE OPERATING PRACTICES MAY RESULT IN SERIOUS INJURY OR DEATH.

- Read this manual completely as well as other manuals that came with your mower.
- DO NOT operate on steep slopes.
- Under no circumstances should the machine be operated on slopes greater than 20 degrees. ALWAYS FOLLOW OSHA APPROVED OPERATION.
- Stay two cut widths away from slopes, drop offs, ditches and retaining walls.
- DO NOT mow on wet grass. Wet grass reduces traction and steering control.
- Keep all shields in place, especially the grass discharge chute.
- Before performing any maintenance or service, stop the machine and remove the spark plug wire and ignition key.
- If a mechanism becomes clogged, stop the engine before cleaning.
- Keep hands, feet and clothing away from power-driven parts.
- Keep others off the mower (only one person at a time)

REMEMBER - YOUR MOWER IS ONLY AS SAFE AS THE OPERATOR!

HAZARD CONTROL AND ACCIDENT PREVENTION ARE DEPENDENT UPON THE AWARENESS, CONCERN, PRUDENCE, AND PROPER TRAINING OF THE PERSONNEL INVOLVED IN THE OPERATION, TRANSPORT, MAINTENANCE, AND STORAGE OF THE EQUIPMENT.

This manual covers t	This manual covers the operating instructions and illustrated parts list for:				
GC-VRII	with a serial number of	P6200001 to P6299999			
Always use the entire serial number listed on the serial number tag when referring to this product.					

GENERAL INFORMATION

1.1 INTRODUCTION

This manual has been prepared to provide the information you need to correctly assemble, operate, and maintain this grass catcher. Read it carefully and keep it for future reference.

THE REPLACEMENT OF ANY PART ONTHIS PRODUCT BY OTHERTHANTHE MANUFACTURER'S AUTHORIZED REPLACEMENT PART MAY ADVERSELY AFFECT THE PERFORMANCE, DURABILITY OR SAFETY OF THIS PRODUCT.

USE OF OTHER THAN ORIGINAL SCAG REPLACEMENT PARTS WILL VOID THE WARRANTY.

If additional information or service is needed that is not outlined in this manual, please contact your Scag Power Equipment dealer. Scag dealers are trained in the latest service methods and carry a full line of Scag replacement parts.

When ordering parts, always provide the complete model number and serial number of your catcher.

All information provided in this manual is based upon information available at the time of printing. Scag Power Equipment reserves the right to make changes at any time without notice or obligation.

1.2 DIRECTION REFERENCE

The "Right" and "Left", "Front" and "Rear" of the machine are referenced from the operator's right and left when standing in the normal operating position and facing the forward travel direction.

1.3 SAFETY AND OPERATING INSTRUCTIONS

NOTE -

To avoid personal injury, it is imperative that all safety instructions be observed.

1. Read this operator's manual and the operator's manual that is supplied with the machine this attachment is used on.

A replacement manual is available from your authorized Scag Service Dealer or by contacting: Scag Power Equipment, Service Department at P.O. Box 152, Mayville, WI 53050. You may also contact us through our website at www.scag.com The manual for this grass catcher can be downloaded by using the model and serial number or use the contact form to make your request. Please indicate the complete model and serial number of your Scag product when requesting replacement manuals.

Do not operate without discharge chute, mulch kit, operator controlled discharge chute (OCDC), or entire grass catcher installed.

- 2. Before removing the grass bags, disengage the mower, stop the engine and wait for all movement to stop.
- **3. ALWAYS** turn the engine **OFF**, remove the key and wait for all movement to stop before servicing or cleaning the mower or the grass catcher.

- 4. Do not modify or alter any component of the grass catcher attachment or mower.
- 5. Do not allow any passengers to ride on the grass catcher attachment or on the mower.

2.1 ASSEMBLY INSTRUCTIONS - CUTTER DECK AND BLOWER COMPONENTS

- NOTE -

Use the illustrated parts list as a part number reference when following the assembly instructions.

-IMPORTANT-

When installing this grass catcher on a machine, one of the following Installation Kits will be needed to complete the installation.

SVRII-48V - Installation Kit p/n 901M SVRII-52V - Installation Kit p/n 901N SVRII-61V - Installation Kit p/n 901P

-NOTE-

When installing this catcher on a model with serial numbers M9500001-N0199999, a new rear belt cover (p/n 427917) will need to be ordered and installed to provide clearance for the mounting bracket.

1. Remove all packaging materials. Lay out the mounting hardware and the catcher assembly parts for easy access. Prepare the work area making sure that it is a clean and safe environment.

A WARNING

Do not operate without discharge chute, mulch kit, operator controlled discharge chute (OCDC), or entire grass catcher installed.

2. Remove the discharge chute from the cutter deck. See Figure 2-2.

- NOTE -

Do not discard the discharge chute or mounting hardware. The discharge chute MUST be reinstalled any time the grass catcher has been removed from the machine.

3. Remove the right side belt cover to gain access to the spindle assembly. See Figure 2-2.

- NOTE -

Retain the original belt cover. This cover MUST be reinstalled any time the complete catcher system is removed.

Figure 2-1. Height Alignment Tools

4. Remove the belt and install the grass catcher pulley onto the spindle assembly. Make sure to mount the pulley 3" from the top of the deck support plate to the center of the groove of the bottom pulley (use the height alignment tools, included with this kit, for increased accuracy, p/n 428125, See Figure 2-1). Install the pulley with the hub inverted, using 1/4-20 x 2½" bolts (p/n 04001-225). See Figure 2-2. (The height alignment tools may "push out" as the pulley is tightened to the hub, this is normal)

Figure 2-2. Discharge Chute Removal

Remove the turbo baffle from the cutter deck. Using 5/16-18 x 1" bolts (p/n 04001-09), 5/16 flatwasher (p/n 04040-15), and 5/16 elastic stop nuts (p/n 04021-10) install the catcher turbo baffle. See Figure 2-3. (baffles have p/n's on them)

Figure 2-3. Grass Catcher Baffles

- NOTE -

Do not discard the original turbo baffle. This baffle may be reinstalled any time the grass catcher has been removed from the machine.

- 6. Remove the hardware for the custom cut baffle from the mounting hole closest to the discharge opening.
- Install the grass catcher baffle weldment and secure using 3/8-16 x 1" carriage bolts (p/n 04003-23) and 3/8-16 elastic stop nuts (p/n 04021-09). See Figure 2-3.

-NOTE-

Adjust the "Custom-Cut" baffle installed in the cutter deck to the lowest position to enhance grass catcher performance.

 Install the blower mounting post to the deck using 3/8-16 x 1¹/₄" bolts (p/n 04001-32), 3/8 flatwashers (p/n 04041-07), 3/8 lockwasher (p/n 04030-04), and 3/8-16 elastic stop nut (p/n 04021-09). Do not fully tighten the hardware at this time. See Figure 2-4 through Figure 2-6.

- NOTE -

When installing on serial numbers M9500001-N0199999 and N61xxxxx models, one hole for the 48V mounting post bracket may need to be drilled. Use the mounting post bracket as a guide if a hole needs to be drilled.

Figure 2-4. Blower Mounting Post Installation (48V)

- NOTE -

When installing on serial numbers M9500001-N0199999, N62xxxx, and N63xxxx; all holes for the 52V mounting post bracket may need to be drilled. Use the template (p/n 427979), included, if holes need to be drilled.

Figure 2-5. Blower Mounting Post Installation (52V)

- NOTE -

When installing on serial numbers M9500001-N0199999, N64xxxx, and N65xxxx; one hole for the 61V mounting post bracket may need to be drilled. Use the mounting post bracket as a guide if a hole needs to be drilled.

SCAG

Figure 2-6. Blower Mounting Post Installation (61V)

- 9. Install the blower assembly to the mounting bracket and secure with the mounting pin. See Figure 2-7.
- 10. Align the blower assembly with the discharge opening of the cutter deck. Tighten the hardware for the mounting bracket. See Figure 2-7.
- 11. Install the quick pin through the hole in the front discharge chute mounting bracket. See Figure 2-7.

Figure 2-7. Blower Installation

12. Install the belt to the spindle pulley. When replacing the belt. See Figure 2-8 for belt routing.

-NOTE-

May need to loosen the rear belt cover guard to route belt around the blower pulley.

Figure 2-8. Belt Routing

 Install the new belt covers supplied and secure. See pages 10-13 of the illustrated parts section provided in this manual for proper installation.

2.2 ASSEMBLY INSTRUCTIONS - HOPPER COMPONENTS

14. With help from an assistant, install the grass catcher mounting weldment assembly. See Figure 2-9 and 2-10.

-NOTE-

For models M9500001-N0199999 and N61xxxx-N65xxxx, the bottom hole for the side mounting bracket to the frame may need to be drilled. Use the mounting bracket as a guide if a hole needs to be drilled.

Figure 2-10. Mounting Weldment Assembly

Figure 2-11. Hopper Mounting Hardware Install

15. Install the mounting pins on to the rear of the machine as shown. Secure using the hardware provided. See Figure 2-11. Note pin alignment in Figure 2-11 and Figure 2-12. This will allow for proper snap pin installation.

Figure 2-12. Pin Alignment

16. With help from an assistant, install the hopper assembly to the machine and secure with the ring pins. See Figure 2-13.

-NOTE-

The model shown in Figure 2-13 is for reference only. The grass catcher installs to all models in a similar fashion.

Figure 2-13. Hopper Installation

17. Install hose adapter (p/n 461387) to the blower assembly and secure with the strap.

-NOTE-

When installing this catcher the discharge hose may need to be shortened. Follow the steps below when required.

- 18. Lower the cutter deck on the machine to the lowest cutting height.
- 19. If required, shorten the hose assembly before securing it to the hood assembly. Route the hose up to the hood assembly and mark the hose length required which will not allow the hose to "sag" or "droop".
- 20. Cut the hose to the required length, if needed.
- 21. Install the hose from the blower assembly to the hopper hood. Secure using the 6" clamps.
- 22. Install the bag assemblies.

2.3 ASSEMBLY INSTRUCTIONS - FRONT WEIGHT COMPONENTS

- 1. Assemble the front weight bar as shown in Figure 2-14.
- 2. Using the weight support bar as a guide, identify the corresponding mounting holes used to secure the weight support bar to the front of the machine as shown in Figures 2-14.

For all SVRII models, existing hardware will need to be removed in order to secure the weight support bar to the front of the machine.

- 3. Install the weight onto the weight bar. Slide the weight to the operator's far left side of the machine, secure using the pin (p/n 485172) in the hole to the inside of the weight. See Page 21 for the correct number of weights required.
- 4. Check all hardware for tightness.
- 5. Operate and test.

Figure 2-14. Front Weight Bar Installation

3.1 GRASS CATCHER REMOVAL INSTRUCTIONS

Prepare the machine so there is easy and safe access to the work area. Park the machine on a flat, level surface and apply the parking brake. Remove the ignition key and disconnect the positive and negative cables from the battery. Maintain all safety related work procedures. Always wear hand and eye protection.

- NOTE -

For best overall performance and dispersal of grass clippings while side discharging, the grass catcher discharge baffle should be removed and the original turbo baffle should be reinstalled.

- 1. Remove the rubber strap holding the adapter to the blower assembly and the large quick pin securing the blower to the discharge mounting bracket. See Figure 3-1.
- 2. Remove the belt, pin, hair pin and large quick pin securing the blower assembly to the cutter deck and remove the blower assembly. See Figure 3-1.

Figure 3-1. Removing the Blower Assembly

- 3. Remove the ring pins securing the hopper assembly to the rear of the machine.
- 4. With help from an assistant, remove the hopper assembly.

Do not operate without discharge chute, mulch kit, operator controlled discharge chute (OCDC), or entire grass catcher installed.

- Re-install the side discharge chute to the opening on the cutter deck. Replace the two (2) outside mounting bolts on the discharge chute with the clevis pins (p/n 04064-15) and rue cotter pins (p/n 04069-03). See Figure 3-2.
- 6. Re-install the cutter deck belt cover.
- 7. Remove the weights from the weight bar.

Figure 3-2. Reinstalling the Discharge Chute

MAINTENANCE

4.1 MAINTENANCE CHART - RECOMMENDED SERVICE INTERVALS

	HOURS							
Break-In (First 10)	8	20	40	100	200	500	Procedure	Comments
х							Check all hardware for tightness	
х							Inspect hose and adapter	
Х							Check belt for proper alignment	
Х							Inspect fabric bags	
	Х						*Check screen in hopper	Remove debris from screen
	Х						Inspect hose and adapter	
	Х						Inspect fabric bags	
	Х						Check condition of blower	
	Х						*Apply grease to blower bearings	See figure below
		Х					Check belt for proper alignment	

* Perform these maintenance procedures more frequently under extreme dusty or dirty conditions.

Any part of the Scag commercial accessory manufactured by Scag and found, in the reasonable judgment of Scag, to be defective in material or workmanship, will be repaired or replaced by an Authorized Scag Service Dealer without charge for parts and labor.

The Scag accessory, including any defective part, must be returned to an Authorized Scag Service Dealer within the warranty period. The expense of delivering the accessory to the dealer for warranty work and the expense of returning it back to the owner after repair or replacement will be paid for by the owner. Scag's responsibility in respect to claims is limited to making the required repairs or replacements, and no claim of breach of warranty shall be cause for cancellation or rescission of the contract of sale of any Scag machine. Proof of purchase will be required by the dealer to substantiate any warranty claim. All warranty work must be performed by an Authorized Scag Service Dealer.

This warranty is limited to 90 days from the date of original retail purchase for any Scag accessory that is used for commercial purposes, or any other income-producing purpose including rental use.

The warranty for the grass catcher blower assemblies (excluding the belt) is limited to 1-year from the date of original retail purchase. 90 Days for rental use.

This warranty does not cover any accessory that has been subject to misuse, neglect, negligence, or accident, or that has been operated in any way contrary to the operating instructions as specified in the Operator's Manual. The warranty does not apply to any damage to the accessory that is the result of improper maintenance, or to any accessory or parts that have not been assembled or installed as specified in the Operator's Manual.

The warranty does not cover any accessory that has been altered or modified. In addition, the warranty does not extend to repairs made necessary by normal wear, or by the use of parts or accessories which, in the reasonable judgment of Scag, are either incompatible with the Scag mower or adversely affect its operation, performance or durability. This warranty does not cover engines and electric starters, which are warranted separately by their manufacturer.

Scag Power Equipment reserves the right to change or improve the design of any accessory without assuming any obligation to modify any accessory previously manufactured.

All other implied warranties are limited in duration to the 90 day warranty period. Accordingly, any such implied warranties including merchantability, fitness for a particular purpose, or otherwise, are disclaimed in their entirety after the expiration of the appropriate ninety day warranty period. Scag's obligation under this warranty is strictly and exclusively limited to the repair or replacement of defective parts and Scag does not assume or authorize anyone to assume for them any other obligation. Some states do not allow limitations on how long an implied warranty lasts, so the above limitation may not apply to you.

Scag assumes no responsibility for incidental, consequential or other damages including, but not limited to, expense for gasoline, oil, expense of delivering the machine to an Authorized Scag Service Dealer and expense of returning it back to the owner, mechanic's travel time, telephone or telegram charges, rental of a like product during the time warranty repairs are being performed, travel, loss or damage to personal property, loss of revenue, loss of use of the mower, loss of time, or inconvenience. Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you.

This warranty gives you specific legal rights, and you may also have other rights which vary from state to state.
