

2026 MODEL YEAR PRICING ANNOUNCEMENT

OTHER BRANDS ARE RAISING PRICES AND CUTTING CORNERS.

MEANWHILE, AT SCAG POWER EQUIPMENT:

- **NO price increases on products or parts.**
- **NO surcharges.**
- **NO product quality reductions or shortcuts.**

We get it. You are worn out by constant price increases and continual excuses from other manufacturers to justify taking more money out of your wallet. Unlike “the other guys,” we value relationships and want to remain your long-term partner of choice. We believe that the Scag brand wins when you win in your local community by offering top-notch services powered by “Simply the Best” products at fair prices.

As such, for the 2026 model year, we’re stepping up by holding tight...
NO price increases on products or parts. NO surcharges. NO cutting corners on product quality.

Additionally, while other brands may be slowing down their R&D efforts, we remain committed to introducing more innovative, reliable and productive new products in the year ahead to round out your fleet of “Cat’s Eye Gold”.

Thank you for your continued support!
